## Sintered Bronze Material

These are cross referenced specifications for sintered bronze material. In most every-day applications, SAE840 and SAE841 should be interchangeable, however you should seek engineering advice for all critical applications.

### SAE 840 SINTERED BRONZE APPLICABLE SPECIFICATIONS:

- ASTM - B438, Grade 1, Type I
- MPIF - CTG-1001-K17

### SAE 841 SINTERED BRONZE APPLICABLE SPECIFICATIONS:

- ASTM - B438, Grade 1, Type II
- MPIF - CT-1000-K26
- Military - MIL-B-5687D, Type I, Grade I (This spec only applies to bushings and washers. It must be requested at the time of quotation. Call us for more information.)
